the air cushion chair

AIRCHAIR SEATING RANGE DESIGNED FOR EDUCATION

airchair

The Airchair, thanks to its double-walled polypropylene shell, has an «air cushion» effect: high comfort similar to upholstery and precise ergonomics. The sophisticated design allows for multiple positions of use.

Made of polypropylene, molded in a single piece with a double wall. The «air cushion» effect and precise ergonomics provide a high level of comfort similar to upholstered furniture. Available in 6 colors to meet every design need, with a RAL 9006 painted frame and black details.

Available in 6 heights to accompany the student throughout the different years of school education.

Made and certified in compliance with UNI EN 1729 standards, completely recyclable for maximum environmental awareness.

It was designed by the R&D managers of a leading Italian company that has been active in the production of furniture for educational environments for over fifty years and is made in Europe.

Main features

- Shell made entirely of polypropylene (PP), BPA-free, molded in one piece and available in 3 sizes.
- Base available in 4 shapes: Zshaped (Z), 4-legged (4P), with a 5- spoke base with footrest (LAB) or without footrest (SW).
- The Z-shaped base allows for tilting movement, improving comfort.
- Stackable in Z and 4P versions.
- 100% recyclable polypropylene (PP) and BPA free.
- The shell is equipped with a hole in the backrest for easy handling and movement.
- Shell is available in 6 different colours.
- Available in 6 heights in Z and 4P versions.
- The upper part of the shell has two spaces for personalization.
- Manufactured and certified in accordance with UNI EN 1729 standard.
