Learning Spaces
School furniture specialists

Des tables et chaises adaptées à leurs besoins jusqu'à des solutions de rangement accessibles qui favorisent l'autonomie, chaque élément accompagne les premiers apprentissages. Notre mobilier pour enfants crée des environnements sûrs et stimulants pour apprendre en jouant, en favorisant l'ordre, le mouvement libre et les routines.

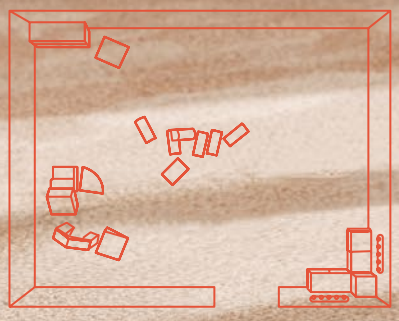

New spaces for curious minds

From tables and chairs adapted to their needs to accessible storage that fosters autonomy, each element supports early learning. Our children's furniture creates safe and stimulating environments for learning through play, promoting order, free movement and routines.

Build, climb and explore through play

Spaces that make movement an integral part of learning. An approach that stimulates psychomotor skills and supports their development through safe play.

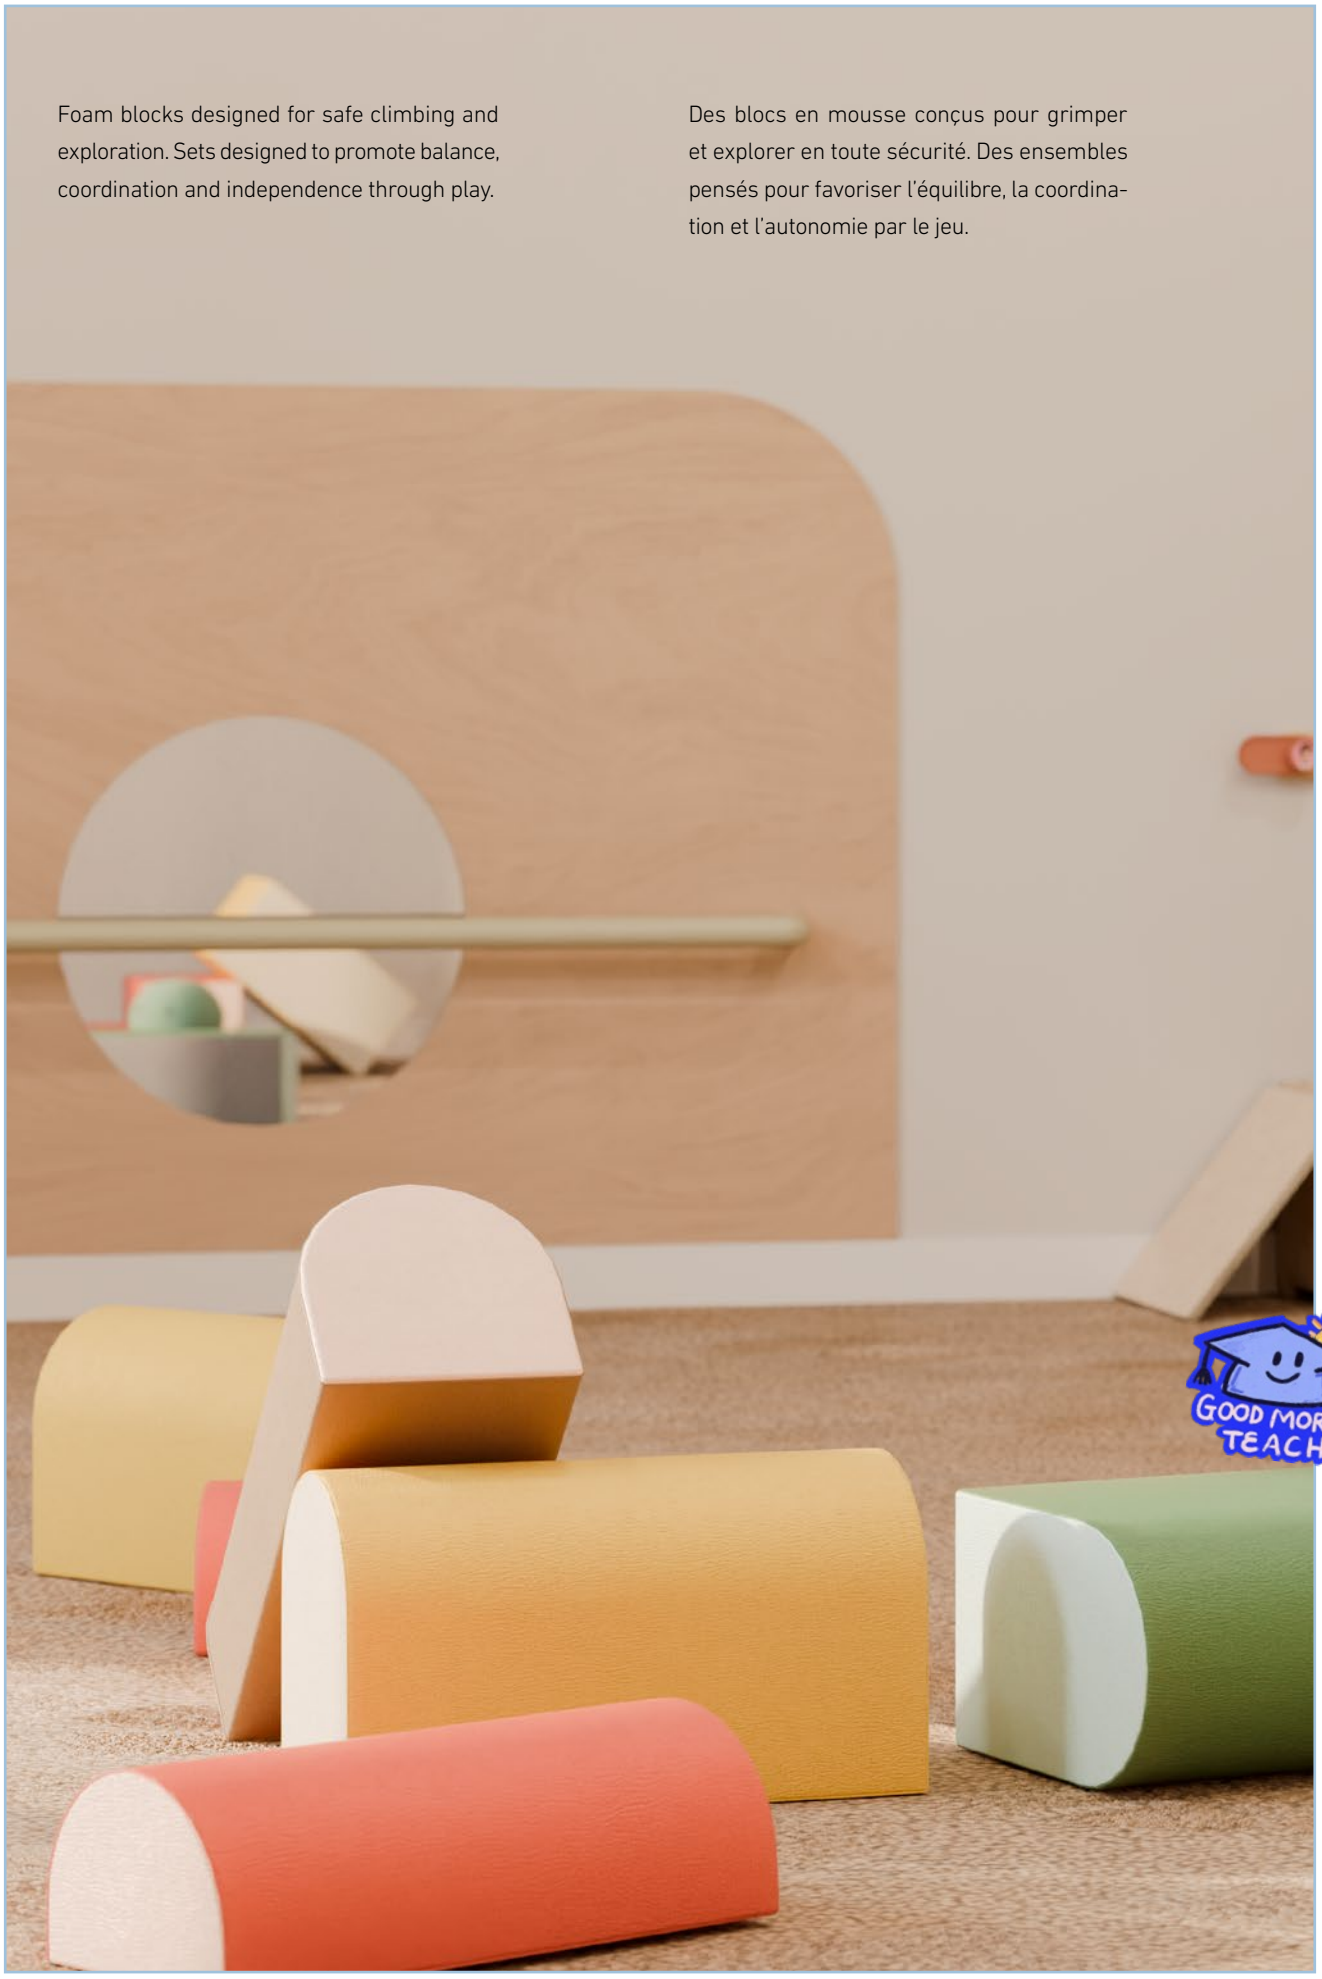

Des espaces qui intègrent le mouvement dans l'apprentissage. Une approche qui stimule la psychomotricité et accompagne son développement à travers des jeux sécurisés.

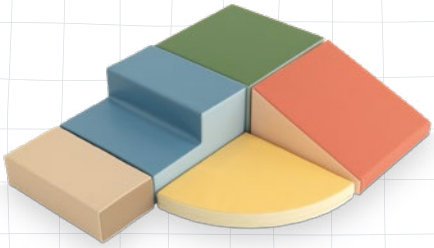

Class 1

Foam blocks designed for safe climbing and exploration. Sets designed to promote balance, coordination and independence through play.

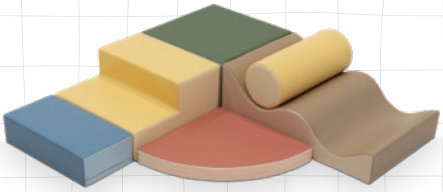

Des blocs en mousse conçus pour grimper et explorer en toute sécurité. Des ensembles pensés pour favoriser l'équilibre, la coordination et l'autonomie par le jeu.

"We must prepare the environment so that it invites the child to develop"

— Maria Montessori

La classe de primaire est un environnement où la curiosité se transforme en savoir et où s'ancrent les acquis essentiels. À ce stade, la collaboration, le travail par projets et la participation active jouent un rôle fondamental. Grâce à un mobilier scolaire ergonomique et fonctionnel, nous créons des espaces qui favorisent un apprentissage plus dynamique, partagé et stimulant.

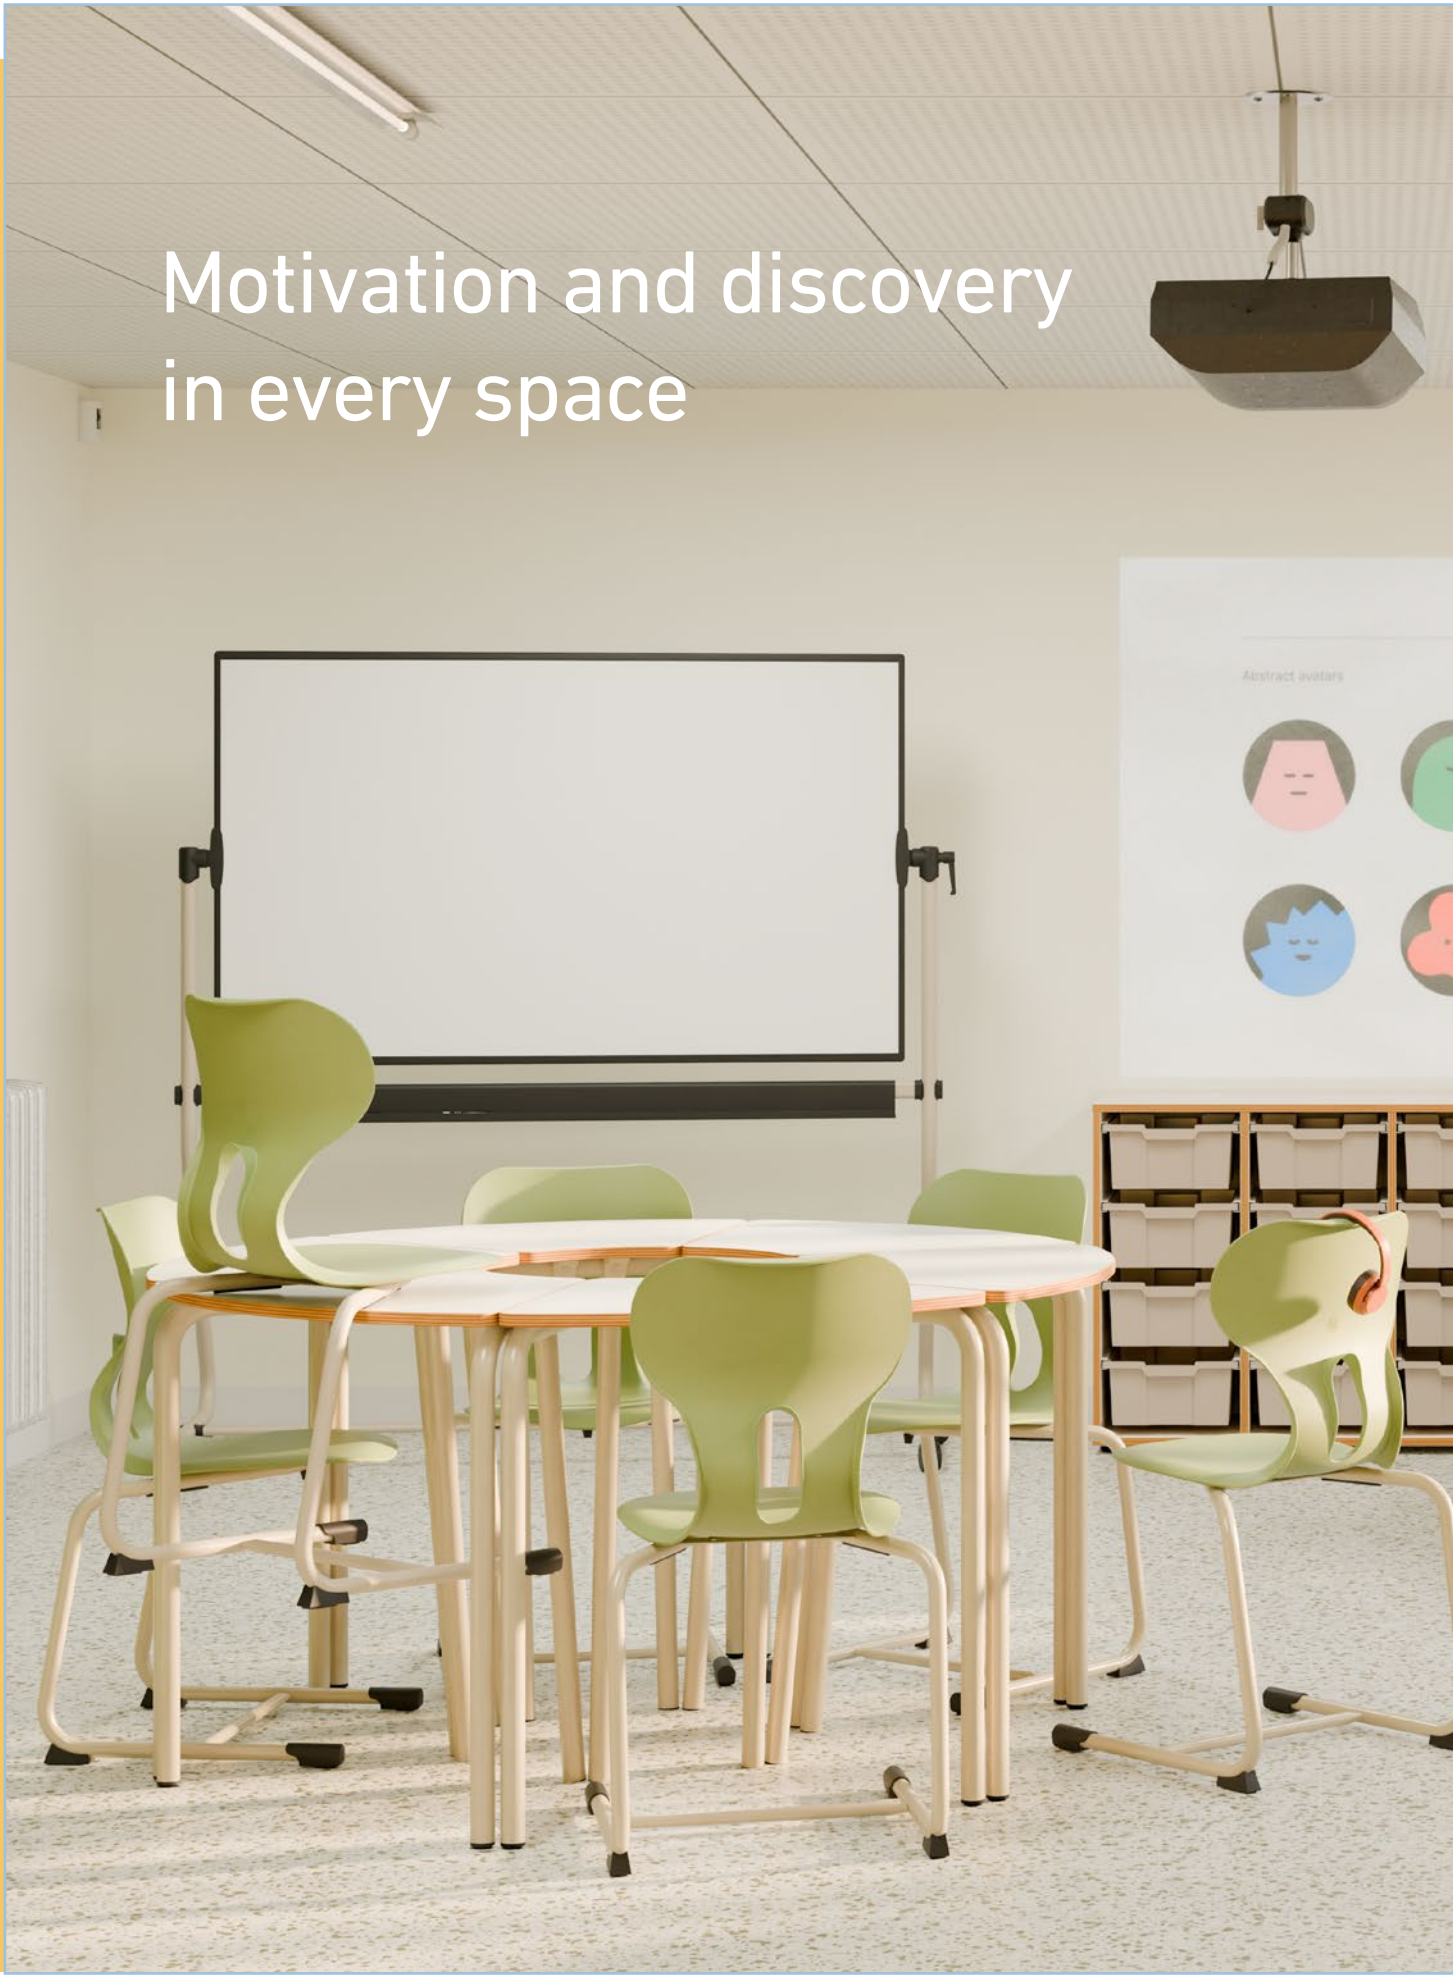

Comfort and functionality for learning

The primary classroom is an environment where curiosity is transformed into knowledge and essential learning is consolidated. At this stage, collaboration, project-based work and active participation play a key role. With ergonomic and functional school furniture, we create spaces that encourage a more dynamic, collaborative and stimulating learning experience.

Motivation and discovery in every space

Class 5

The LIA range of school chairs is designed to provide comfort and functionality in primary school classrooms. Its curved backrest promotes an ergonomic posture, whilst the rear loop makes it easy to hang a schoolbag. The LIA CANTILEVER model features non-slip rubber pads on the legs and protective feet for safe stacking on desks.

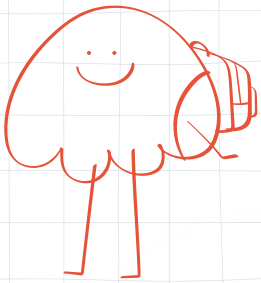

Flexible daily spaces for cooperative learning

La collection de chaises scolaires LIA est conçue pour offrir confort et fonctionnalité dans les salles de classe du primaire. Son dossier incurvé favorise une posture ergonomique, tandis que l'ouverture à l'arrière permet d'y accrocher facilement un sac à dos. Le modèle LIA CANTILEVER est équipé de patins antidérapants sur les pieds et d'un embout de protection permettant de l'empiler en toute sécurité sur une table.

Cooperative learning spaces require flexible furniture that adapts to different ways of working in the classroom. The HEXA desk meets this need with a versatile design, a fold-down tabletop for easier storage, and a shape that allows for multiple configurations.

Les espaces d'apprentissage coopératif nécessitent un mobilier modulable qui s'adapte aux différentes façons de travailler en classe. Le pupitre HEXA répond à ce besoin grâce à un design polyvalent, un plateau rabattable facilitant le rangement et une forme permettant de multiples combinaisons.

Spaces that connect voices and ideas

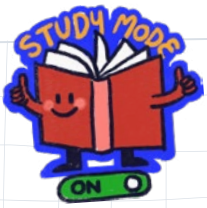

Class 6

Desks and chairs with wheels transform the classroom into spaces designed for listening, sharing ideas and encouraging more active participation.

Les pupitres et les chaises à roulettes transforment la salle de classe en espaces aménagés pour écouter, échanger des idées et favoriser une participation plus active.

1

1| GRACE school cupboard, 80 cm high with space for trays.
1| Armoire scolaire GRACE de 80 cm de hauteur avec un espace pour les bacs.

Storage is essential in primary school classrooms to promote tidiness and independence. Cupboards with large or small compartments allow materials to be organised in a practical and accessible way.

Le rangement est essentiel dans une classe de primaire pour favoriser l'ordre et l'autonomie. Les armoires équipées de bacs, grands ou petits, permettent d'organiser le matériel de manière pratique et accessible.

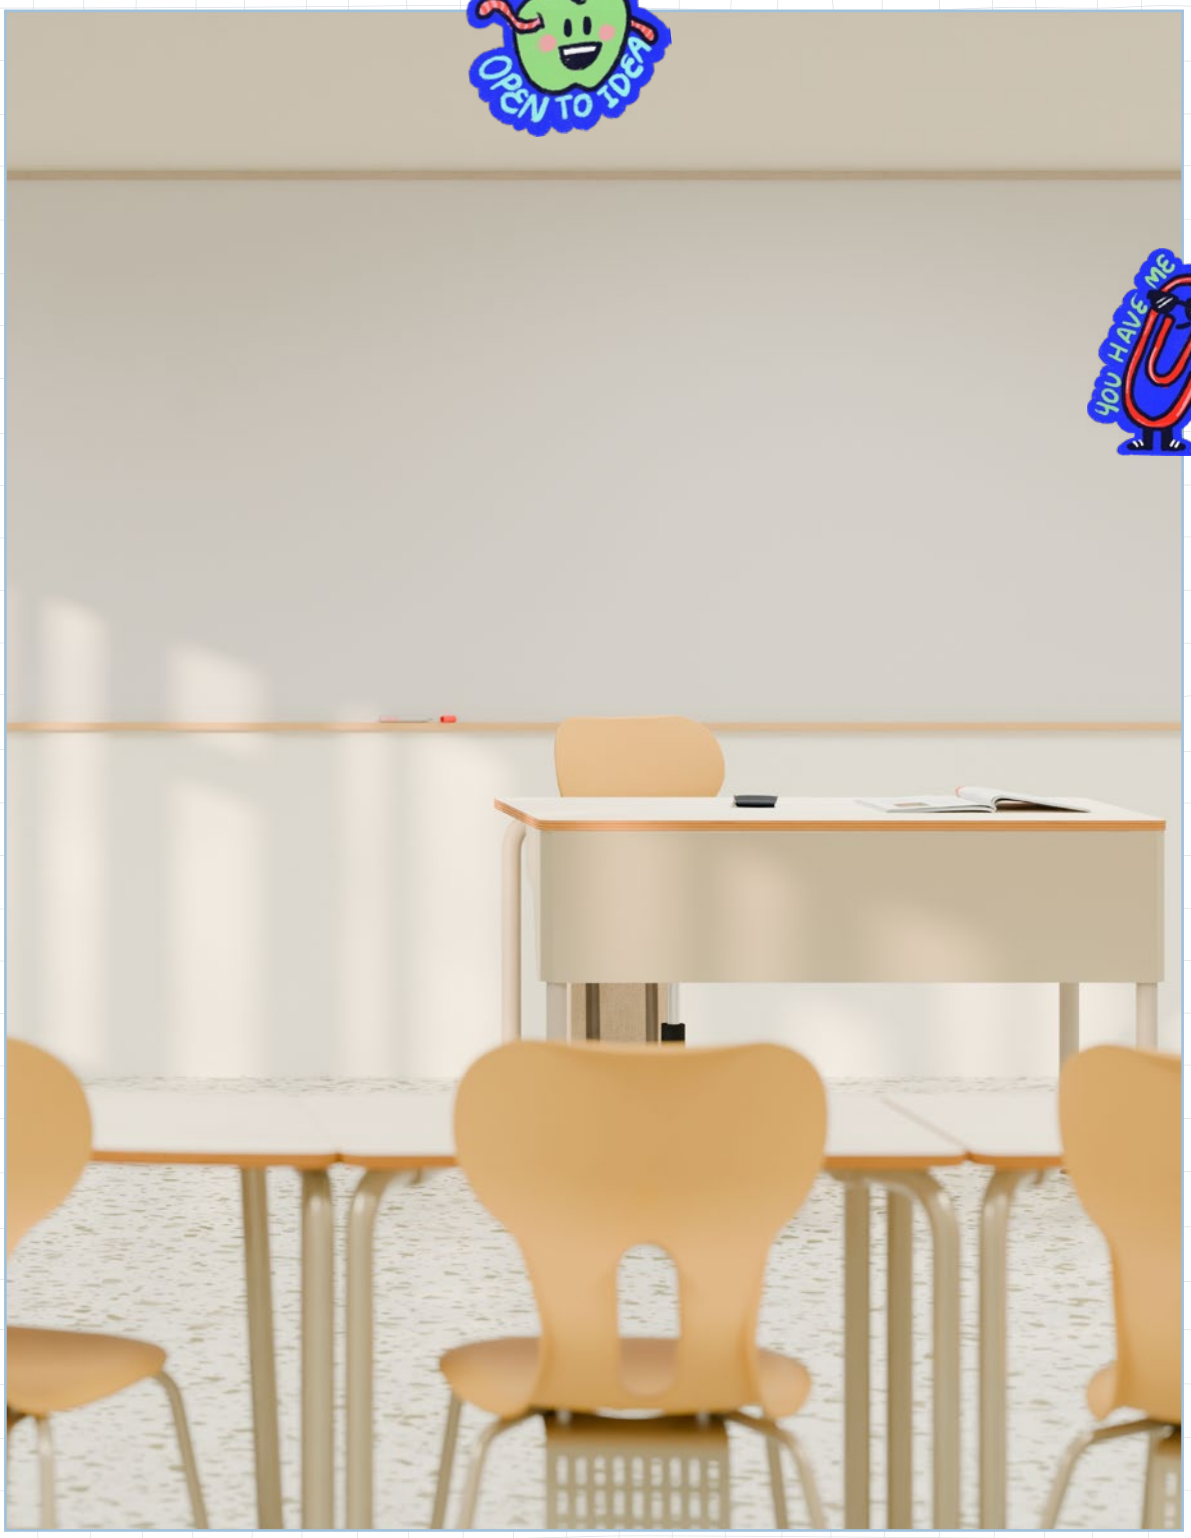

+ Info P. 190

Furniture for teachers, designed to provide comfort and help keep the classroom organised Ergonomic and functional solutions to improve the day-to-day lives of teachers and students.

Mobilier destiné aux enseignants, conçu pour offrir un confort optimal et faciliter l'organisation de la salle de classe. Des solutions ergonomiques et fonctionnelles pour améliorer le quotidien des enseignants et des élèves.

"One child, one teacher, one book, one pen can change the world."

— Malala Yousafzai

Le collège nécessite des espaces qui favorisent la concentration, l'autonomie et un apprentissage plus individualisé. Le mobilier scolaire devient un outil essentiel pour créer des environnements fonctionnels et bien organisés, conçus pour l'étude, la réflexion et le développement de nouvelles compétences, avec des salles de classe polyvalentes permettant d'alterner travail autonome et activités collaboratives.

Autonomy and focus in every space

Secondary school requires spaces that encourage concentration, independence and a more personalised approach to learning. School furniture becomes a key tool for creating functional, well-organised environments designed for study, reflection and the development of new skills, with versatile classrooms that allow for a combination of independent work and collaborative activities.

Designed for concentration and individual learning

SQUARE school desks with drawers, designed to create more functional and well-organised classrooms. Ideal for individual study, they also allow for versatile configurations for collaborative work and projects.

Les pupitres scolaires SQUARE avec tiroir, sont conçus pour créer des salles de classe plus fonctionnelles et mieux organisées. Idéaux pour le travail individuel, ils permettent également des configurations polyvalentes pour les travaux et projets collaboratifs.

Les halls d'accueil, les couloirs et les espaces communs font également partie intégrante de l'apprentissage et de la vie en communauté. Dans ces environnements, le mobilier contribue à créer des espaces accueillants, fonctionnels et conviviaux, conçus pour inspirer, guider et enrichir l'expérience scolaire au-delà de la salle de classe.

Spaces that brings people together

Reception areas, corridors and communal spaces are all part of the learning and social experience. In these settings, the furniture helps to create welcoming, functional and connected environments, designed to inspire, guide and enrich the school experience beyond the classroom.

STEAM

One space,
multiple
possibilities

Beyond organising learning by subject, the STEAM approach proposes spaces designed around different types of activity.

The environment also plays an educational role. The layout of the furniture, the lighting, the acoustics and the flexibility of the space have a direct influence on students' motivation, concentration and participation.

A| Research area / Espace de recherche
B| Collaboration area / Espace de collaboration
C| Focus area / Espace de concentration
D| Rest area / Espace de détente
E| Presentation area / Espace de présentation

Au-delà de l'organisation de l'apprentissage par matière, l'approche STEAM propose des espaces conçus en fonction des différents types d'activités.

L'environnement est lui aussi un facteur éducatif. La disposition du mobilier, l'éclairage, l'acoustique et la flexibilité de l'espace ont une influence directe sur la motivation, la concentration et la participation des élèves.

+ Info P. 188

Each area serves a specific purpose within the learning process. These spaces are designed for experimentation, presenting ideas and learning through practice.

Chaque espace répond à un besoin spécifique du processus d'apprentissage. Des espaces conçus pour expérimenter, présenter des idées et apprendre par la pratique.

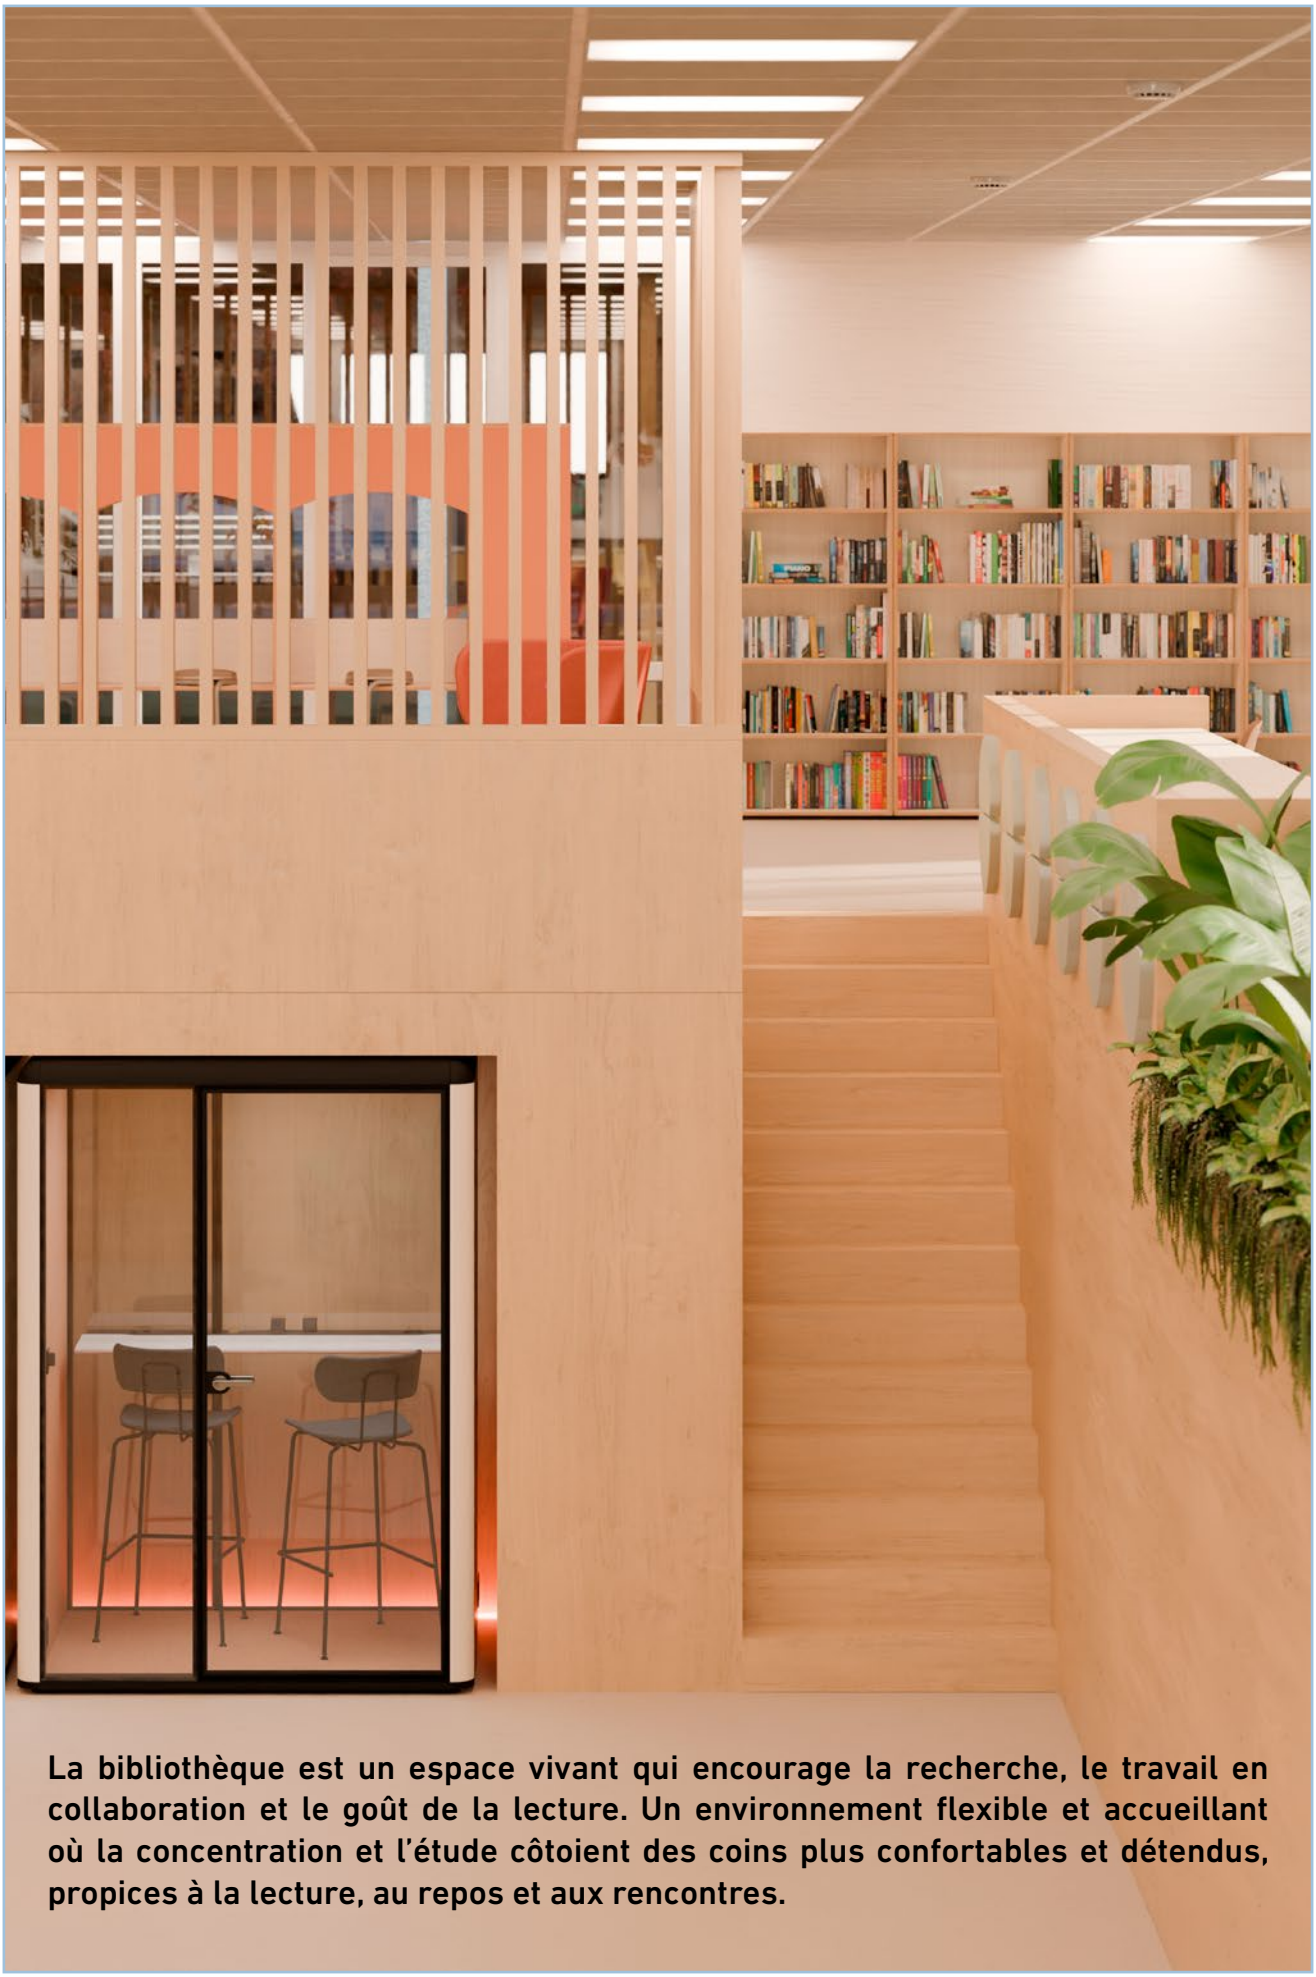

ALUFLOOP table with robotics kit, ideal for building, experimenting or creating. For hands-on, active learning.

Classroom design

We help you transform your classrooms to adapt to new educational approaches. Improving the layout, acoustics and student flow is easy with versatile, comfortable and durable furniture that can be moved and stored with ease, opening up a world of possibilities for learning.

Aménagement des salles de classe

Nous vous aidons à transformer vos salles de classe afin qu'elles s'adaptent aux nouvelles dynamiques pédagogiques. Améliorer l'agencement, l'acoustique et la circulation des élèves est un jeu d'enfant grâce à un mobilier polyvalent, confortable et résistant, facile à déplacer et à ranger, qui ouvre tout un monde de possibilités pour l'apprentissage.

Options

1. Floor plan: A practical layout of the space viewed from above, ready to be implemented.

1. Agencement de l'espace : une proposition concrète de l'espace vue d'en haut, prête à être mise en œuvre.

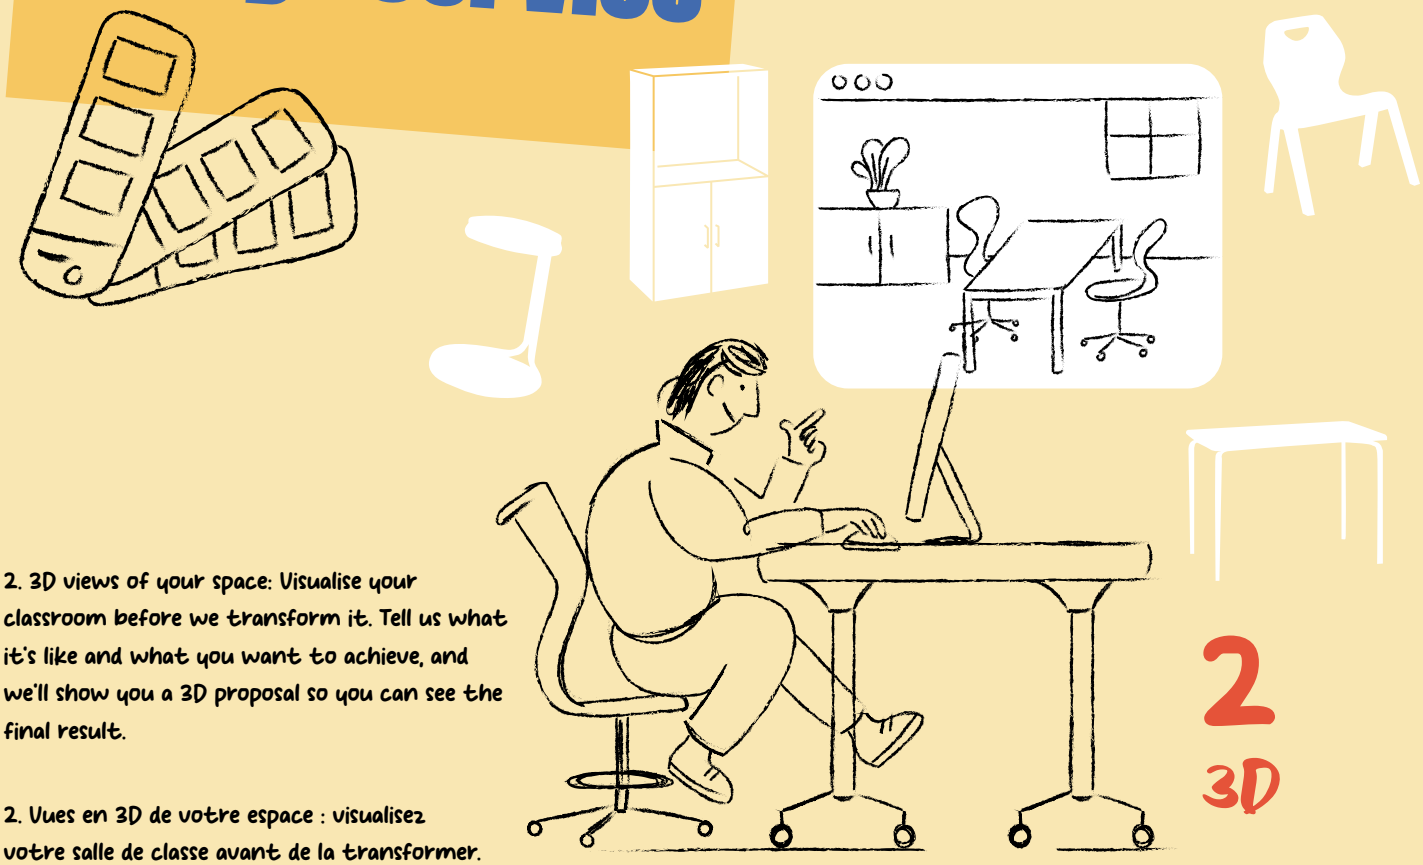

who we are

With over 20 years' experience, we design and manufacture school furniture for all stages of education, combining design and innovation to create flexible, versatile and student-centred learning spaces.

We support schools in transforming their classrooms, fostering environments where collaboration, creativity and well-being are part of everyday life. Because we understand that space also educates, we develop solutions that connect people, ideas and new ways of learning.

Classroom design service

mirplayschool.com/classroom-design

2. 3D views of your space: Visualise your classroom before we transform it. Tell us what it's like and what you want to achieve, and we'll show you a 3D proposal so you can see the final result.

2. Vues en 3D de votre espace : visualisez votre salle de classe avant de la transformer. Décrivez-nous son état actuel et ce que vous souhaitez réaliser, et nous vous présenterons une maquette en 3D pour vous donner un aperçu du résultat final.

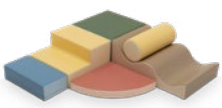

2 3D

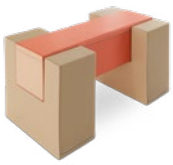

Forts de plus de 20 ans d'expérience, nous concevons et fabriquons du mobilier scolaire pour tous les niveaux d'enseignement, en alliant design et innovation afin de créer des espaces éducatifs flexibles, polyvalents et centrés sur l'élève.

Nous accompagnons les établissements scolaires dans la transformation de leurs salles de classe, en favorisant des environnements où la collaboration, la créativité et le bien-être font partie du quotidien. Parce que nous comprenons que l'espace éduque lui aussi, nous développons des solutions qui relient les personnes, les idées et les nouvelles façons d'apprendre.
